Community Cats

HELPFUL INFORMATION AND TIPS FOR THE COMMUNITY

IMPORTANT NUMBERS

**Spay Neuter
Hotline (for TNR)
602-265-7729**

**Surrender Stray Cat to
MCACC (\$96 fee)
602-506-7387**

**Injured/Sick Animals
AZ Humane Society
602-997-7585**

Note: There is a \$96 relinquishment fee for each stray cat that you bring in to surrender to MCACC. This cost recovery fee goes towards the feeding, care, and sheltering of each cat.

TNR is widely believed to be the most humane and effective method for stabilizing a community cat population. For more information about TNR, please call the Spay Neuter Hotline at 602-265-7729 or complete the online form: <https://adlaz.org/spay-neuter-hotline/outdoor-cats/new-request-for-tnr-services/>.

What You Can Do to Help Keep Community Cats Away From Your Property

- Remove or secure all potential food and water sources from your property, including dog food
- Spray concentrated orange juice or hang orange or lemon peels in areas where cats are spraying — cats do not like the citrus scent
- Keep all trash and recycle bins tightly closed as cats are considered opportunistic feeders/hunters
- Use a motion-detecting device that turns on a sprinkler or bright light in response to motion on your property, such as ScareCrow™
- Remove or secure potential shelter areas — secure access under houses, sheds, decks, porches, and buildings with wire fencing
- Use plastic carpet runners spike-side up and covered lightly in soil to prevent cats from digging in your garden
- Keep landscaping trimmed to avoid creating hiding/nesting spots
- Spread dried wild animal manure in the areas you notice feral cats in your yard; wild animal urine also may work to deter the cats
- There are also many commercial cat repellants (chemical and non-chemical options) available in garden stores, pet shops, and online
